Education

2022 - 2024
RIPHAH INTERNATIONAL UNIVERSITY

- Associate Degree in Computer Science
- GPA: 3.6/4.0

Certifications

- Web Development | BanoQabli (PITB Accredited) | 2024
- MERN Stack Development | BanoQabli (PITB Accredited) | 2024

Skills

- Languages: JavaScript, C++, HTML, CSS
- Framework: React.js, Node.js, Express.js, MongoDB
- Tools: Git, VS Code, Postman, Figma

Interests

- Coding & Programming
- Photo & Video Editing
- Reading Tech Blogs

Languages

- English
- Urdu

Professional Summary

Motivated and detail-oriented Full Stack Web Developer with hands-on experience in developing responsive and scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Strong foundation in C++ programming with a focus on writing clean, efficient code and building logical solutions. Eager to contribute to real-world projects, collaborate with experienced teams, and grow within a professional development environment. Passionate about technology, problem-solving, and continuous learning.

Projects

Social Media Website   🌐 tweex
◆ Tweex

Tech: React.js, Node.js, Express.js, MongoDB, CSS

- Developed a full-stack MERN application with user authentication, CRUD operations, and real-time post interactions.
- Implemented JWT-based authentication, MongoDB Atlas integration, and efficient RESTful APIs using Express.
- Designed a responsive UI with dynamic routing and clean navigation using React Router.
- Deployed the application on Render with environment configuration and improved performance by 30%.

Weather Integration App   🌐 weather
◆ weather

Tech: React.js, OpenWeather API, JavaScript, HTML, CSS

- Built a weather forecast app using React.js and OpenWeatherMap API for real-time weather data.
- Implemented geolocation support for city-based weather search and dynamic forecast display.
- Utilized async/await, API data parsing, and responsive components for seamless user experience.
- Achieved 95% accuracy in data rendering by optimizing API call handling and error management.
- Deployed on Vercel with responsive layout and modern styling.

Personal Portfolio Website   🌐 mrsrafiashahid
◆ Portfolio

Tech: React.js, CSS, JavaScript, Tailwindcss

- Designed and developed a responsive personal portfolio using React.js and modern CSS frameworks.
- Showcased full-stack projects, skills, and contact forms with a clean and engaging user interface (UI).
- Implemented interactive components and smooth animations to enhance user engagement.
- Deployed on Vercel for fast loading, continuous deployment, and performance optimization.
